

Waste Qualifications

CIWM (WAMITAB) Level 3 Award in Health and Safety Supervision for Resource and Waste Management Sector **Available from 1st October 2023**

About this qualification

The resource and waste management sector is one of the most dangerous in the UK with a fatal injury rate 11 times the all industry average (HSE, 2022). This qualification provides people working in supervisory and managerial roles within this sector with an essential understanding of health and safety so they can create safer working places for themselves and others.

Who is it for?

- New entrants to the industry.
- Trainee operations managers and supervisors.
- Team leaders and supervisors.
- Experienced workers seeking a formal qualification.

How is this qualification delivered?

This qualification can be delivered face to face or virtually in a classroom environment. It is assessed by multiple choice question paper and a reflective work project.

What does this qualification cover?

To achieve this qualification, learners must complete the mandatory unit. This unit is designed to ensure that individuals will:

- Know their **responsibilities under health and safety legislation**, and how this applies in a resource and waste management workplace.
- Understand the **key principles of risk assessment**, and how this applies in a resource and waste management workplace.
- Know the process of **accident investigation and reporting** in the resource and waste management workplace.
- Understand the **key principles of behavioural health and safety**, and how to develop behavioural safety in a resource and waste management workplace.
- Understand the **key principles of health and safety leadership**, and how this can be used in a resource and waste management workplace.
- Know how to **measure health and safety performance** in a resource and waste management workplace.

What are the entry requirements of this qualification?

This qualification is open entry. This means that learners interested in undertaking it do not require any other qualifications or levels of attainment to take this qualification.

What job role could this qualification lead to or support?

Learners that achieve this qualification will have the knowledge and understanding in relation to health and safety to progress into supervisor, team leader or manager roles in the resource and waste management sector.
